

Suraj Pattewar

+91 7038424155 | Pune | surajpattewar95@gmail.com | linkedin.com/in/suraj-pattewar

Senior Data Engineer with 7+ years of experience delivering cloud-native data platforms, scalable backend systems, and AI-powered solutions for Telecom, Banking, and Financial Services industries. Expertise in Big Data, Python, GCP, FastAPI, Agentic AI and workflow automation. Strong background in building resilient data pipelines and distributed applications at scale.

SKILLS

Technical Core & Languages: Python, SQL, Unix Shell Scripting, C, Scala (Basic)

Cloud & Big Data Platforms: GCP (BigQuery, GCS, Cloud Run, Functions), Big Data (Hadoop, Airflow, PySpark, Kafka, Hive, Sqoop), ClickHouse, DuckDB, Elasticsearch, VictoriaMetrics, Time series Databases

AI & Intelligent Automation: Agentic AI, LLM Integration, Vertex AI, Matching Engine

Backend Systems & APIs: FastAPI, REST APIs, Microservices, JWT Authentication

Data Engineering & Pipelines: ETL/ELT, Distributed Data Lake Architecture, Data Modeling/Migration, Scalable Workflow Automation

Deployment & Tooling: Docker, Kubernetes, CI/CD, Streamlit, Git, IBM DataStage, Web Scraping (Playwright, BeautifulSoup)

PROFESSIONAL EXPERIENCE

T-Systems (Deutsche Telekom) | Lead Data Engineer [Aug 2022 - Present]

MBfD AI Powered Tender Processing:

- Architected and developed FastAPI-based microservices and AI Agent workflows for an AI-powered Tender Intelligence platform, Agentic AI, and LLM integrations for document analysis, knowledge extraction, and intelligent information retrieval, enabling business users to efficiently discover and evaluate tender opportunities.
- Designed and implemented a fully automated, self-healing Tender Scraper platform that continuously monitors tender portals, tracks delayed document releases, and automatically identifies relevant business teams and stakeholder email contacts. Reduced manual tender monitoring effort by approximately 50–60 hours per week, eliminated spreadsheet-based assignment processes, improved tender coverage, and minimized human errors through automated recovery and monitoring workflows.

T Advertising Solution: Led migration from PySpark+Elasticsearch to DuckDB+ClickHouse, reducing infrastructure usage by **85%** and costs by **78%**. Optimized DuckDB SQL and Scala-based Spark streaming jobs, cutting data load times from hours to minutes.

Multivariate Anomaly Detection: Developed PySpark and Airflow-based ETL pipelines supporting ML workflows and data processing at scale. Built Streamlit applications for operational use cases, deployed Kafka MirrorMaker on Kubernetes for cross-environment topic replication, and developed reusable Kafka ingestion/export frameworks adopted across teams.

Quantiphi (Client: Google) | Data Engineer [Jul 2021 - Aug 2022]

GCP Migrations & Grant-AI: Migrated 170TB Data Lake from Cloudera to GCP using PySpark and Airflow for bank. Developed ETL pipelines for web-scraped research data (APIs, XML), implemented Vertex Matching Engine (VME) for embedding similarities, and received the **TrailBlazer Award** for innovation.

Video Intelligence Pilot: Sole DE for celebrity/logo identification project. Built Cloud Functions to trigger ML models, processed large-scale video/audio data via Python, and engineered CSV-to-CVI JSON conversion for UI compatibility.

Capgemini (Client: Banking & Finance) | Data Engineer [Jul 2019 - Jul 2021]

Data Lake Implementation & Migration: Led 4-member DE team to migrate **37TB** legacy data to Hive/Impala. Developed generic framework and **20+** Unix automation scripts, optimized jobs by **30%** via Parquet, and managed Teradata-to-GCP ETL migrations using DataStage and Control-M. Received **Rising Star Award**.

Education

College Of Engineering, Pune (COEP) - Pune,

B. Tech, – Mechanical Engineering, CGPA 7.80 [May 2019]

Sr. Chaitanya Jr. College – Hyderabad

11th and 12th – Science, Percentile 94.6 [May 2015]

Certifications

- Associate Cloud Engineer (GCP Certification)
- Modernizing Data Lakes and Data Warehouses with GCP
- Big Data (Capgemini FLP)
- Advanced-Data Science with IBM (Coursera course)
- Deep Learning Specialization (Coursera course)
- Machine Learning With Big Data (Coursera course)

Awards

- **Spotlight Recognition** [Apr 2026]
- **Get Things Done - T-Systems India** [Apr 2025]
- **Get Things Done - T-Systems India** [Apr 2024]
- **TrailBlazer Award - Quantiphi India**
[May 2022]
- **Rising Star Award – Capgemini India** [Dec 2020]
